

TLILIC0005 Licence to operate a boom-type elevating work platform

(boom length 11 metres or more)

Description

This unit specifies the skills and knowledge required to safely operate a boom-type elevating work platform where the length of the boom is 11 metres or more. 'Boom-type elevating work platform' means a telescoping device, hinged device, or articulated device, or any combination of these, used to support a platform on which personnel, equipment and materials may be elevated. A person performing this work is required to hold a boom-type elevating work platform high risk work (HRW) licence. This unit requires a person operating a boom-type elevating work platform to plan the work, conduct routine checks, set up elevating work platform, operate elevating work platform, and shut down and secure elevating work platform.

Licensing/Regulatory Information

This unit is based on the licensing requirements of Part 4.5 of the Model Work Health and Safety (WHS) Regulations, HRW and meets Commonwealth, state and territory HRW licensing requirements. Any alteration to this unit would result in a unit that would not be acceptable to work health and safety (WHS)/occupational health and safety (OHS) regulators for the purpose of licensing.

Delivery Method

The course is delivered by highly experienced trainers, using face-to-face delivery techniques. It includes a combination of questionnaires, discussions and practical exercises. The course is interactive and focuses on practical skills and knowledge.

Duration of this Course

Course duration will depend on previous experience and course numbers. Please contact us for more details.

Cost of this Course

The cost of this course is \$605* per person (including WorkSafe fees). *Concessions may apply to eligible students. **Please Note:** The Student tuition fees are indicative only and are subject to change given individual circumstances at enrolment. Additional fees may apply such as Student service and resource fees.

How will I be Assessed?

You will be assessed via a knowledge test that is conducted in a classroom testing environment where students may reference their training materials, workbooks and manuals available throughout the training course. The practical section of the course will be assessed via observation.

What will I get at the end of this Course?

On successful completion of this unit, you will receive:

- Statement of Attainment
- WA Worksafe licence (from Worksafe in approximately 6 weeks) - this licence is only valid for HRW in Western Australia
